

**NEW TO CANADA? FREE PROGRAM**

# Learn English to communicate better in the health care sector

## Occupation-specific Language Training (OSLT) Health Care

### OSLT will help you to:

- practice verbal reporting and written documentation in the health care context
- explore interpersonal communication skills and workplace cultural concepts.
- learn about and practice health teaching and how to give comfort and reassurance.
- manage challenging interactions.

### This free course is for you if:

- you're a **permanent resident** or a **protected person** living in Ontario.
- your English is at an **intermediate level** (Canadian Language Benchmark 6 - 8).
- you have training or experience in one of the following: dental hygiene, medical laboratory technology, medical radiation technology, nursing, personal support work, sleep technology, physiotherapy.

**Online delivery. Starts September 21, 2020**

### Online class schedule:

- From September 21 to December 18.
- Thursdays from 7:30 pm - 8:30 pm
