

# BUILDING WOMEN'S CAREERS

## YWCA Hamilton Pre-Apprenticeship Program

### Find your future in the skilled trades!

YWCA Hamilton, in affiliation with Mohawk College, is pleased to offer a **General Machinist Pre-Apprenticeship Program for Women in Trades!** This is a no-cost program that provides participants with technical training and job coaching to start their career in the skilled trades.

### What do Machinists do?

General Machinists produce parts by interpreting drawings, selecting the most appropriate raw materials and performing calculations. They use a variety of machines and tools to cut shapes. They finish metal to make precision machined parts and components used in all areas of manufacturing.

**Now accepting applications!**

### Participants will receive:

- Job readiness training
- Up to 16-weeks training at Mohawk College
- 8-week placement

#### To apply please contact:

Rashda Syed, Program Coordinator at
