

## DIGITAL LITERACY WORKSHOPS – JUNE 2021

Digital  
Smarts

**Discover** workshops are made to help people who are just getting started with digital technology. They focus on the most basic skills of using the internet.

*Discover Online Basics* covers things like visiting websites, using search engines and using voice assistants like Siri or Alexa.

*Discover Online Safety* covers topics including making strong passwords, downloading apps safely, and avoiding online scams.

**Explore** workshops are made to help people who are already using digital technology get more out of it. They focus on building your confidence and broadening your horizons.

*Explore Online Basics* covers navigating websites, setting up accounts and filling out forms, and finding essential services online.

*Explore Online Privacy* looks at safe use of social networks, using privacy settings, and making good decisions about sharing other people's photos online.

*Explore Online Shopping and Entertainment* covers buying and returning things online, spotting reliable sellers, and finding free music and video content.

*Explore Digital Parenting* looks at managing kids' screen time, helping to keep your kids safe online, and setting household internet rules.

**Navigate** workshops are made for active internet users who are running into new challenges online. They focus on helping you be a smart and safe internet user.

*Navigate Online Information* covers advanced search skills, how to choose different online sources of information for different needs, and how to verify information you see online.

*Navigate Online Privacy and Security* looks at how to secure your accounts and devices, how to keep your devices safe from malware, and how to prevent and deal with cyberstalking.
