These mobile pop-up clinics will be located outdoors. Individuals are encouraged to dress appropriately for the weather and protect themselves against the sun.

Please note, these clinics will be at this location on these days only and then will move onto another location. This team will return for scheduled second dose appointments.

Public Health Services recommends that everyone who is eligible for a vaccination receive the first vaccine that is available to them. We need to work together to reduce the spread of COVID-19 in our community, to reserve healthcare and hospital capacity and to protect vulnerable populations.
