## Meet Friends and Make Connections.

### Newcomer Workshops and Networking Program

Newcomer women, youth and 2SLGBTQ+ youth often face additional barriers when settling into their new community. Our FREE workshops and networking program will help connect you to local services and resources.

Our goal is to help you make new friends, build networks and participate in your community in a way that is meaningful to you. We will do this through providing you with the support that you need to engage, to network and develop cross-cultural connections.

#### Join us to access these workshop and networking opportunities:

- Events and Workshops
- Field Trips
- Virtual Programming
- Enhanced Supports

Our staff team will support you in providing care for your children while you attend our services and will assist with transportation, translation and interpretation services when in-person services resume.

#### We want to help you settle. To participate in YWCA Hamilton's Join Program, participants must:

- identify as a woman, 2SLGBTQIA+ or non-binary person and,
- be a Permanent Resident, Protected Person/Convention Refugee or a Live-in Caregiver: Temporary Foreign Worker with an approved work permit
