Digital Smarts

Discover workshops are made to help people who are just getting started with digital technology. They focus on the most basic skills of using the internet.

Discover Online Basics covers things like visiting websites, using search engines and using voice assistants like Siri or Alexa.

Discover Online Safety covers topics including making strong passwords, downloading apps safely, and avoiding online scams.

· ·

Explore workshops are made to help people who are already using digital technology get more out of it. They focus on building your confidence and broadening your horizons.

Explore Online Basics covers navigating websites, setting up accounts and filling out forms, and finding essential services online.

Explore Online Privacy looks at safe use of social networks, using privacy settings, and making good decisions about sharing other people's photos online.

Explore Online Shopping and Entertainment covers buying and returning things online, spotting reliable sellers, and finding free music and video content.

Explore Digital Parenting looks at managing kids' screen time, helping to keep your kids safe online, and setting household internet rules.

· ·

Navigate workshops are made for active internet users who are running into new challenges online. They focus on helping you be a smart and safe internet user.

Navigate Online Information covers advanced search skills, how to choose different online sources of information for different needs, and how to verify information you see online.

Navigate Online Privacy and Security looks at how to secure your accounts and devices, how to keep your devices safe from malware, and how to prevent and deal with cyberstalking.

· ·
