

A New Hobby – Or – A Hobby I Get to Do More Now

Think for a few minutes about what you have been doing this past month and a half. Is there something you really enjoy doing? Maybe you used to draw, but now you have much more time to draw. Maybe you have started baking. Perhaps there is a new activity outside that you are learning. Choose one hobby and tell us about it. What have you learned? Why do you like it? Write 2-4 sentences about your hobby. You can also include a photo or a picture of you doing your hobby.

Write your sentences here.

My new hobby from the quarantine has been packing. We are moving to a new house in Hamilton. I am trying to pack the things that we need to take. I am also trying to pack up all the things that we can donate because we no longer need them. I feel sad to leave the home that I have lived in for twenty years. I am happy to make a new home and look forward to building new memories.
