

## Reading Conversion Chart Je Lis to GB+

Je Lis has a levelling system based on colours, rather than the numbers that are used in the GB+ French reading books students have been bringing home. To use Je lis, please find a GB+ book your child brought home and see which GB+ number your child is reading. Then, look at the chart below to find out which Je Lis colour is best suited for them. This will be the place that your child will start their French online reading this week.
