Dear Parents and/or Guardians,

Please be aware of the guidelines set out by classroom teachers in terms of digital citizenship and online learning in a virtual classroom. Please review these expectations with your child.

Please ensure that your child understands that they should not use the online learning platforms for personal use. If your child needs to submit work to their teacher after hours, that is acceptable, but they should not be using the online learning platforms (MS Teams, Google classroom) for chatting without a school staff present or engaging in video chats after hours.

Thank you for your support with this matter.

Mrs Tammy McLaughlin  
Principal  
Richard Beasley Elementary School
