$5 + 2 = \underline{\quad}$

$1 + 5 = \underline{\quad}$

$4 + 5 = \underline{\quad}$

$6 + 2 = \underline{\quad}$

$8 + 4 = \underline{\quad}$

Properties of Liquids and Solids

SOLIDS

Have their own size and shape. They do NOT take the shape of the container they are in.

They remain solids even when they are broken, moved, or cut.

Is it Still a Solid?

Choose three solids and complete the activity sheet. Record your observations.

Name: _____
