

Term 1 Sight Words

Throughout Grade 1, students will develop a sight vocabulary of the most frequently used English words. By the target date, your child will be expected to automatically read the words when shown. Once your child has mastered the list by reading (not writing) the words in random order three times with no mistakes, have them tell Mr. P and I will test them. After they can read all of the words independently (without any mistakes) they will join that club and be ready to practice the next list.

Please keep this package in a safe place. You can also find an electronic copy on our class website.

- Regular practice for a few minutes (in random order) each evening is suggested
- Flash cards are a highly effective way of mastering club words
- Help your child to read these words by finding them in various places (home reading books, signs, etc.)
