

Part A Match the Columns (5 marks)

Part B Complete the Table (10 marks)

Place each set of integers in order from LEAST to GREATEST

+8, -8, 0	-8, 0, +8
+3, +24, +5, 0	0, +3, +5, +24 (0, 3, 5, 24)
-1, - 7, -3	-7, -3, -1
+ 3, 0, -23, +14	-23, 0, +3, +14
+99, 0, - 123, +16, +2 ³ , - 1/2	-123, -1/2, 0, +2 ³ (8), +16

Part C Evaluate the Following

1. $2 + 5 = 7$

2. $-2 + -7 = -9$

3. $(+12) + (+12) = +24$

4. $(+11) + (-1) = +10$

5. $(-25) + (+3) = -22$

6. $(-41) + (+25) = -16$

7. $(-100) - (+100) = -200$

8. $-45 - (-99) = +54$

9. $(-123) - (+42) = -165$

10. $-(3^2) - (+\sqrt{81}) = -9 - (+9)$
 $= -9 + (-9)$
 $= -18$
