

Grade 8 Science Systems **Other Systems in Action PowerPoint Summary**

Name: _____ Class: _____ Date: _____

As we go through the PowerPoint, you are to fill in the blanks.

1. Systems can be divided into _____ and _____ systems.
2. Both types of systems can be _____ or Human Made.
3. An example of a Natural Physical System is _____.
4. An example of a Human Made Physical System is _____.
5. An example of a Natural Social System is _____.
6. An example of a Human Made Social System is _____.
7. Examples of inputs in systems are _____.
8. Examples of outputs in systems are _____.
9. Examples of side effects are _____.
10. What system is the electric shaver? _____
11. What system is the camera? _____
12. What system is the Birthday Party? _____

13. What system is the apple with ants? _____

14. What system is the internal organs? _____

15. What system is the toaster? _____

16. What are some examples of system feedbacks in natural systems? _____

17. What are some examples of system feedbacks in human made systems? _____

18. What happens when a system is not properly maintained? _____

19. Every system overlaps with other systems. True or False? _____

What are your learnings from this extension of the systems unit?
