

Grade 8 Science – Water Unit Vocabulary Exercise

Remember that there is no shortcut to learning – only shortcuts to the end and sloth.

algae bloom -

aquatic –

biosphere –

creek –

detritus –

disposal –

ecosystem –

entanglement –

environmental impact –

estuary –

glaciers –

grey water-

ground water –

hydrosphere –

ice caps (continental glaciers) –

infiltration –

leaching –

non-renewable –

potable –

pollutants –

renewable –

reservoirs –

resources –

river –

saline –

sewage –

solid waste –

storm drain –

surface water –

toxins –

tributaries –

watershed –

water table –

wetlands –
