

## Problème de la semaine

Date sent home:

Dessine les aiguilles pour l'heure indiquer ci-dessous ?		Utilise tes stratégies de calculs mentales !
8h45		Commence à 91. Ajoute 2 chaque fois. 91, _____, _____, _____, _____, _____ ... Explique ta stratégie :

Voici une suite numérique.

61, 54, 47, 40, ...

Quels sont les trois prochains nombres de cette suite?

Justifie ta réponse.

Here is a numeric pattern. 61, 54, 47, 40, ...

What are the next 3 numbers in this pattern? Justify your answer.

Stand: Patterning & Algebra

Expectation: create a number pattern involving addition or subtraction, given a pattern represented on a number line or a pattern rule expressed in words

**Estimation**

1 2 3 4

\* makes a reasonable estimate

\* uses a grade appropriate strategy

**Calculation**

1 2 3 4

\* uses a grade appropriate strategy  
 \* carries out procedure efficiently and accurately

**Representation**

1 2 3 4

\* represents the math accurately  
 \* writes numbers accurately  
 \* explains concept clearly using mathematical language

**Concept & Application**

1 2 3 4  
 \* demonstrates understanding of concept

**Total:**

1 2 3 4

**Notes**
