

What I Need to Include

- ✓ Detailed description of the habitat
- ✓ Detailed explanation of the animal or plant's adaptations
- ✓ Explanation of how this plant/animal is connected to other plants or animals in the habitat (food chain / food web)
- ✓ Explanation of what has lead to this plant or animal becoming endangered

Flip Booklet Checklist

- Did I use *text features* to add information for my reader (e.g. heading = main idea); Did I sketch pictures and add labels to point out important information (e.g. adaptations); Did I add captions or text boxes to further explain these adaptations and how they help the animal/plant live in this habitat
- Did I show a good understanding of both physical and behavioral adaptations by explaining the adaptations of the endangered animal or plant
- Did I use the paragraph format correctly (opening, content and closing sentences); Did I use and explain science words correctly (e.g. consumer)
- Did I show a good understanding of this habitat and how changes to the habitat have lead to the decline of this species to the point that it is designated "endangered"
