

# How to make Slime

# What you will need

## Ingredients:

- 4oz PVA glue
- ½ tsp. baking soda
- 3-4 tsp. contact lens solution
- Food colouring (optional)
- Glitter (optional)
- For fluffy scented slime add a few pumps of shaving cream (optional)

## Other Tools:

- Mixing bowl
- Measuring spoons
- Food Scale
- Silicone spatula
- Sealed container or Ziploc bag

# Step One

Place the bowl onto the scale and pour glue into the mixing bowl.

# Step Two

Measure and stir in baking soda. Mix well.

# Step Three

Add food colouring, glitter or shaving cream if desired. Mix well.

# Step Four

Add contact solution. Mix until slime forms.

# Step Five

Knead the slime with your hands to get the desired consistency.

# Step Six

Store in a sealed container or Ziploc bag.

Have Fun!
